Technical Sheet

QDPROHX516G2

Quik Drive Attachment for Metal Sheeting

The QDPROHX516G2 is designed to be used in light gauge steel applications with Simpson Strong-Tie 'X' screws. Quik Drive attachments are manufactured containing PTFE to reduce friction and impart non-stick properties meaning that no lubrication is required. The QDPROHX516G2 kit comes with mandrel, hex driver bit, screw quiver and carry case. Extension poles can be ordered seperately.

Features

Material

- Manufactured containing PTFE
- No lubrication required

Benefits

- Connects easily with screw gun adapter or extension
- Possible 360° rotation of attachment on adapter or extension
- Self-lubricating material for long life and smooth operation
- Self-locking depth adjustment to prevent damage to steel

Kit Includes

QDPROHX516G2 Quik Drive attachment, mandrel, hex driver bit and screw quiver.

Applications

Common Applications

- Steel to steel applications
- Steel framing
- Light gauge steel

QDPROHX516G2
Quik Drive Attachment for Metal Sheeting

Installation

Remove screw driver sleeve.

Then remove the cap.

Insert the mandrel.

Engage the gun with the mandrel and snap it onto the adapter.

Insert the tape screw tip pointed up: your screwdriver is ready!
